Test Charts

Description

The plugin extends the standard functionality of the “Evaluation Register” module in LMS format, integrating:

- Export functions for the details of the answers provided by users
- Category charts, showing test results for all users, aggregated by question category

These exports will allow further statistical analysis activities on the answers provided to the tests administered on the platform

Export answers details

The plugin“TestChart”adds, by clickingon the histogram in the Evaluation Register two LINKS:

AD_4nXe-v_4J6D6iF5PbW8zPD7BhdyTpOa2FAaQReb7zgF_46l2qvZD_6zhnT4UvJrY_oRfXUPXWpwEz0(

Aggregated answers

Aggregate responses: which reports the aggregated data of the answers provided by all the users who took the test

AD_4nXeLoK4bW1KRDgOfzwxHP0O82g82tKoHJrebqqzyxirJ37eT4gv-9ElJuhBrqrLkTisAQ9ku41g2Rb65

Detailed Responses

Detailed Answers: where for each individual user the question, the answer provided and the score obtained are reported, for all the questions in the test

Export Detailed answers to individual questions

Export the list of all answers given by users to the specific question.

The file can be integrated with data from additional personal data fields, based on the selection set in the export configurations for each test.

Charts for question categories

The plugin integrates statistics from answers to tests with a new “Statistics by Category” tab, which shows a graph of correct answers aggregated by question category

Export and chart configuration

In the test configuration, the plugin adds the Link: Test Chart Management, which allows you to configure the data of the .csv file that is extracted
